SITE SHOW & TELL + GALLERY WALK

REFLECT & CREATE

 - If your site has 2 LFs, you will work together
- 3-4 Accomplishments
 - What did you accomplish
 - How did you accomplish it
 - The Impact
- 3-4 Ongoing Challenges
 - What have you tried
 - What has been the response
 - Questions you have/advice you need
- You'll have 15 minutes

ACCOMPLISHMENTS

- Non-Example:
 - Building strong relationships with students
- Example:
 - We've built strong relationships with students by creating a strong & welcoming environment. We prioritized active listening, tailoring our approach to meet their individual learning styles. Our most effective strategies include celebrating small wins, doing x every Friday, setting clear expectations. As a result, students became more motivated, actively sought help when needed, etc.

CHALLENGES

- Non-Example:
 - Building strong relationships with students
- Example:
 - Building relationships has been challenging, particularly in establishing trust and engagement. I've been trying to create connections by x, y, & z. Some students have responded well and other remain reserved or disengaged. I'm wondering: What strategies have worked best for others in fostering trust with students who've been reluctant? Are there specific conversation starters or activities that have been particularly effective in building rapport in a short timeframe?
